Exhibit offers window views of Blacksburg

Led by BRAA member Diane Relf and her husband, Dave Angle, a wonderful art project is gracing the lawn at the Alexander Black House on Draper Road in Blacksburg this month. "My Window on Blacksburg" was conceived and facilitated by Diane. She and Dave provided free old windows to all artists willing to participate. Sixteen artists responded, with 10 of them being members of or associated with BRAA.

Artists were encouraged to convert the windows into a statement about the town and the artists' connection to it. Relf and Angle built the supporting frames and installed them into the lawn of the house. The staff of the Black House wrote to say how much they love this exhibit on the lawn and asked if they can stay even longer than planned! At this writing they will remain through August, but don't be surprised if they "hang" around there even longer!

BRAA artists included in this project are:
Loretta and Rafael Bedia, Sara Fortier (granddaughter of member **Jeanette Bowker**), **Paula Golden, Delbert Jones, Sally Mook, Diane Relf, Robi Sallee, Donald Sunshine, Joanna Sunshine,** and **Gerri Young.** ■

Diane Relf and Dave Angle led the show by providing their ideas, windows, and frames for hanging the exhibit.

Gerri Young's window featured Happy Hollow childhood memories.

A supportive and encouraging community was the focus of Donald Sunshine's window.

"Earth's Center" was the theme of Sally Mook's window which included her expression of feelings about Blacksburg.

Diane Relf depicted a branch in her figurative tree of life.

What Color is Water? is a collaboration between water quality education programs and the residents of the region to "connect" with water in a way which encourages us to see our most fragile resource, as clean, refreshing, pure, and in need of our protection and good stewardship.

Participants will create a 9" x 9" watercolor of their perceived "color of water." Each artist will sign their name and donate the work for the site specific installation in Perspective Gallery to be installed and exhibited during spring 2018.
